

Developed From The Ground Up For HVAC Contractors

ELIMINATE BIOFILM BUILD-UP AND PROTECT AGAINST CORROSION—ALL AT ONCE!

RAM-PRO-XL – It's A Game Changer!

The RAM-PRO-XL is an innovative new tube cleaner that utilizes TubeGuard technology with a custom formulated tablet designed specifically for chiller tubes. The XL version is the more powerful big brother to the popular RAM-PRO introduced 2 years ago. The TubeGuard tablet dispenser along with variable shaft speed control and reversible shaft rotation makes it the most advanced portable tube cleaner available today.

RAM-PRO-XL

Tube cleaner w/ quick connect manifold, integrated roll cage/dolly, two direction foot switch (110 V 50/60 Hz)

RAM-PRO-XL-A (220V 50/60 Hz)

Note: See pages 32-37 and 46-49 for shafts and accessories.

FEATURES

- > On-board TubeGuard dispensing system
- > Heavy-duty roll cage construction with integrated dolly
- > 0.5HP motor
- > Direct Drive
- > Quick connect threadless shaft manifold
- > Interchangeable cleaning tools
- > Variable shaft speed
- > Reversible shaft rotation
- > Simultaneous water flus
- > Power cord and foot pedal storage

Specification	RAM-PRO-XL
Motor Power	Standard: 0.5 HP (90 VDC)
Input Power	Standard: 5.5 amps, 115 V, 50/60 Hz AC Optional: 3 amps, 230 V, 50/60 Hz AC
Power Supply Cord	21', 14-3 GFCI
Flexible Shaft Speed	Variable 0-900 rpm
Water Requirements	Minimum 30 PSI at 2 GPM
Dimensions	20" high x 16" wide x 26" deep
Weight	55 lbs net dry

1 CLEAN

- > Variable shaft speed
- > Reversible shaft rotation
- > Simultaneous flush of TubeGuard-XL chemical

2 DISINFECT

- > TubeGuard-XL tablet eliminates biofil

3 PROTECT

- > TubeGuard-XL tablet prevents corrosion

TubeGuard™-XL – It's Revolutionary!

A custom formulated tablet design is the best available technology for corrosion inhibition of copper and ferrous metal tubes. The TubeGuard-XL tablet is safe to handle, completely biodegradable and designed with environmentally friendly chemicals. Specifically designed to work with the all new RAM-PRO-XL, this revolutionary tube cleaning process will forever change the ease and effectiveness of both eliminating bio-film and preventing corrosion. No measuring or dosing of chemicals is required. The TubeGuard-XL tablet simply dissolves in the RAM-PRO-XL's on-board reservoir during tube cleaning; flushing the tubes in EPA certified bio-film removal compounds.

TUBEGUARD-XL

Package of four tube cleaning tablets (for 3 average sized chiller cleanings). For use with the RAM-PRO-XL
